

INTRODUCTION

MiliMatch is a caregiver recruiting & client matching application. Our application provides a non-invasive augmentation of your recruiting and scheduling staff, mitigating the risk of a bad hire to ensure greater retention and client satisfaction.

WHAT'S IN IT FOR YOU?

Owner

- Competitive advantage by increasing caregivers and client satisfaction.
- Immediate financial benefits as a result of increased revenues & retention
- Improved operational standardization through recruiter and scheduler augmentation.

Recruiter

- Free up time to source the RIGHT candidates
- Focus on candidates you are more likely to hire
- Conduct more successful and meaningful interviews
- Lesson the likelihood of a bad hire
- Increased synergy with schedulers
- Know what your scheduler needs are before you hire.

Scheduler

- Enhanced ability to make a meaningful match to clients
- Retention based matching
- Increased optics into staffing pool
- Work in conjunction with Recruiters
- Decrease "no shows" with proper Caregiver Client match

A MiliMatch is not based on AI or a personality test. Through identifying and analyzing behavioral patterns within written text, MiliMatch utilizes patented technology that reveals your applicant's soft skills that correspond with your client's needs, therefore, you know who you need to hire before you meet them.

Caregiver Profile

Client Needs Profile
